### SUMMARY

Professional with 2+ years of experience in system development, focused on building APIs, integrations, and scalable applications. Strong experience with C#, .NET, Angular, and relational databases (SQL), including data modeling and query optimization. Committed to writing clean, maintainable code, applying OOP principles and best practices.

### EDUCATION

#### Uninter

Associate Degree in Systems Analysis and Development

Jul. 2024 – Dec. 2026

DL / Rio de Janeiro, Brazil

### EXPERIENCE

#### ConnectSea

Full Stack Junior Developer

Aug. 2025 – Present

Rio de Janeiro - RJ, Brazil

- Led front-end refactoring, migrating from Angular 15 + Bootstrap to Angular 18, improving performance and maintainability.
- Develop REST APIs using C# (.NET), implementing complex business rules and access control.
- Designed and optimized database interactions using SQL Server and Entity Framework (Code First).
- Implemented messaging and service integrations using RabbitMQ in a containerized environment with Docker.

**Tech Stack:** C#, .NET, Angular 18, Tailwind, PrimeNG, SQL Server, RabbitMQ, Docker

#### BTG Pactual Bank

Summer IT Intern

Jul. 2025 – Aug. 2025

Rio de Janeiro - RJ, Brazil

- Developed front-end applications with Next.js and TypeScript, building dashboards and dynamic data tables.
- Implemented real-time communication using WebSockets integrated with .NET APIs and JWT authentication.
- Improved internal workflows through data centralization and process optimization.
- Reduced negotiation time by up to 70% through performance and usability improvements.

**Tech Stack:** Next.js, TypeScript, Material UI, C#, .NET, WebSockets, Docker, Kubernetes, AWS, Azure

#### Nalin Stores

Web Developer

Jan. 2024 – Jun. 2025

Magé - RJ, Brazil

- Developed full stack internal systems supporting business operations.
- Built front-end interfaces using Vue.js and TypeScript with focus on usability.
- Implemented back-end services using Node.js and .NET.
- Optimized SQL queries and integrations, improving performance and data consistency.

**Tech Stack:** Vue.js, TypeScript, Node.js, C#, .NET, SQL

### TECHNICAL SKILLS

**Back-end:** C#, .NET, .NET Framework, REST APIs, Entity Framework, RabbitMQ

**Front-end:** TypeScript, JavaScript, Angular, Tailwind CSS, Sass

**Cloud & DevOps:** Docker, Azure, AWS, Git

**Databases:** PostgreSQL, Microsoft SQL Server

**Tests & Practices:** xUnit, Object-Oriented Programming (OOP), Spec-Driven Development (SDD)

### LANGUAGES

**Portuguese:** Native

**English:** Professional Working Proficiency
